BURIED DEEP.

Two Hundred and Thirty Miners Im-
prisoned in a Burning Brit-
ish Coal Mine.

Seven Dead Bodies Lifted Out—There
is Little Hope of Saving
Others.

Lord Salisbury Succeeds Very Nicely in
Forming the New British
Ministry.

A COLLIERY DISASTER.

Seven Persons Dead and 1000
Imprisoned.

By Cable to THE SENTINEL.
LONDON, June 18.—A terrible explo-
sion took place to-day in the Pendlebury
colliery near Manchester. Sixty persons
have been rescued alive. Seven dead
bodies have been recovered, one hun-
dred miners are still below and there is
only a faint hope of any being saved.

STORY OF THE DISASTER.

The cages in which the volunteers
were proceeding down to the bottom of
the pit got stuck in the shaft and it was
two hours before the party could get to
work exploring the mine for the missing
men.

ANOTHER ACCOUNT.

LONDON, June 18.—Another account
of the colliery explosion, near Manches-
ter says it occurred at Clifton colliery
and that 230 are still imprisoned.

4 P. M.—A dispatch from Manchester
states that up to half past 2 o'clock this
afternoon eighteen dead bodies had been
recovered from the Rendlebury colliery.

ONE HUNDRED RESCUED.

One hundred men have been rescued
from the mine. Probably 100 have
been killed.

One Hundred and Twenty-seven
Seamen Lost.

By Cable to THE SENTINEL.

PARIS, June 18.—Official information
has just been received to the effect that
the French despatch boat, Renard, re-
cently reported lost in the Indian ocean,
foundered in a cyclone and the whole
crew, numbering 127, was drowned.

THE CHOLERA.

By Cable to THE SENTINEL.

MADRID, June 18.—Three of the four
commissioners appointed to investigate
the subject report that inoculation with
cholera virus is harmless they advise it
be permitted on the ground that it will
tend to prevent panic.

There were 532 new cases of cholera
and 151 deaths reported in the cities of
Murcia, Valencia and Castellon de Plana
during the twenty-four hours ending at
midnight last night. At Madrid there
was one new case and six deaths.

THEY OBJECT TO DISINFECTANTS.

MADRID, June 18.—Inhabitants of
populous portions of the city actively
oppose all measures taken by the munici-
pal authorities to disinfect their dwell-
ings. The resistance of the people has
become so passionate and persistent that
the authorities finally felt constrained to
abandon the enforcement of all sanitary
regulations which had been adopted to
prevent the entry of cholera into Mad-
rid or to prevent its ravages should the
dread disease find lodgment there.

The British Cabinet Completed.

By Cable to THE SENTINEL.

LONDON, June 18.—The composition
of the new cabinet has been partially set-
tled, as follows: The Marquis of Salis-
bury, prime minister and secretary of
state for the foreign department; Sir
Michael E. Hicks Beach, chancellor of
exchequer; Lord Randolph Churchill,
secretary of state for India; Sir Richard
Assheton Cross, secretary of state for
the home department; the Right Hon.
Edward Gibson, lord chancellor of Ire-
land; the Right Hon. William Henry
Smith will probably be secretary of war;
Col. Frederick Stanley, secretary of the
colonies; the Earl of Carnarvon or Vis-
count Cranbrook, lord lieutenant of Ire-
land; and Sir Stafford Northcote, lord
president of the council.

All reports regarding the composition
of the new cabinet concur in the state-
ment that the Earl of Carnarvon will be
vicerey of Ireland and Hon. Ed-
ward Stanhope will be president of the

board of trade. Right Hon. Lord George
Hamilton is named for the office of first
lord of admiralty, Right Hon. Lord John
Manners for postmaster general, Hon.
Edward Clark for attorney general and
John Eldon Gorst for solicitor general.

Lord Salisbury had a two hours' inter-
view with the queen yesterday and im-
mediately afterward returned to London.
It is stated that the conservatives have
now decided to accept office regardless
of obtaining liberal support. They rely
upon the moderate liberals to volunteer
their support, but the radicals will be
certain to hold aloof.

Sir Stafford Northcote's acceptance of
a peerage is generally regretted, as it
will leave the conservative leadership in
the house of commons too much under
the influence of Lord Randolph Church-
hill. Sir Stafford Northcote's title will
be Lord Eldon.

The Times in an editorial says: The
new cabinet is a compromise between re-
building the Disraeli ministry and in-
fusion of new blood demanded by Lord
Randolph Churchill. It is not a com-
plete triumph for Lord Randolph, al-
though his principal demands have been
conceded.

Mr. Gladstone delivered up to the
queen to-day the seals of the office of
prime minister.

The queen gave an audience at Wind-
sor castle to-day to Sir Stafford North-
cote.

A Crisis in Italy.

By Cable to THE SENTINEL.

ROME, June 18.—Owing to the close-
ness of the vote last evening in the
chamber of deputies, on foreign esti-
mates, Senator Mancini, the foreign min-
ister, has declared his intention of
resigning. Other ministers have also
decided to tender their resignations.

ANNOUNCED.

ROME, June 18.—In the chamber of
deputies, Signor De Pretis, prime min-
ister, announced the resignation of the
ministry.

Last Night's Foreign Report.

By Cable to THE SENTINEL.

LONDON, June 17.—The Pall Mall
Gazette of this afternoon has an edi-
torial article, believed to be inspired
by M. Lestor, of the Russian section of
the Afghan boundary commission, and
couched in angry terms. It says that
unless the Marquis of Salisbury wishes
to carry the conviction of Russia that
his ministry is a menace of war, he
will cancel the appointment of Lord
Randolph Churchill as secretary of
state for India. "Russia," continues
the article, "already regards the Salis-
bury cabinet with such suspicion that
any sudden hint may cause such a rup-
ture of the negotiations now in pro-
gress as will result in war."

It is said that the queen is deter-
mined if possible, to induce Mr. Glad-
stone to accept a peerage. She will
again offer him a title and in the event
of his refusing it, she will confer one
on Mrs. Gladstone.

The Marquis of Salisbury, at 3 o'clock
to-day, departed for Windsor Castle, to
the queen the names of the ministers
has been chosen for the new cabinet.

The Marquis of Salisbury to-morrow
will go to Windsor castle and there
inform the queen in the manner pre-
scribed for the ceremony and observed
for so many years that he is ready to
obey the commands of his sovereign
and accept the responsibility for the
conduct of the government of her
majesty.

The Times in an editorial says the
new cabinet is a compromise between
rebuilding the Disraeli ministry and the
infusion of new blood demanded by
Lord Randolph Churchill. It is not a
complete triumph for Lord Randolph
although his principal demands have
been conceded.

BIRMINGHAM, June 17.—A labor riot of
grave proportions took place here last
night. The trouble grew out of differ-
ence between the men and the factory
owners about the hours of labor. The
men struck, and last evening crowds
of people gathered about the several
factories and violently assailed them
with stones and other missiles. Win-
dows were demolished; gates forced
and the excited people surged upon
the factory grounds. The military
were called out and succeeded by mid-
night, in dispersing the crowds and
restoring order. Two officers, six
pirates and many rioters were
wounded.

of the American college at Rome.

The Investigating Committee.

By Telegraph to THE SENTINEL.

SPRINGFIELD, Ill., June 18.—In the
house investigating committee yester-
day, Mr. Collins, chairman of the com-
mittee, laid before the organization an
affidavit signed by F. H. Tubbs, superin-
tendent of the Western Union Telegraph
company, of Chicago, to the effect that
during February, of last year, he had
been called upon at the Leland hotel, in
this city, by Representative Baker, of
Moultrie county, and that the latter
offered to kill the telegraph bill for \$25,-
000, Baker to be given \$5,000 and the
remainder for distribution among other
parties. Summons was at once sent to
Baker, who soon made his appearance,
and, being sworn, said he knew Mr.
Tubbs and had talked with him on sev-
eral occasions. He explicitly denied
that he had at any time made any propo-
sition to Tubbs, or any one else, of the
character referred to. The committee
then adjourned.

A Correction.

By Telegraph to THE SENTINEL.

CHICAGO, June 18.—A card is pub-
lished here to-day from a Bohemian stating
that it was not a Chicago theatrical
company which was welcomed at Prague
the other day but Bohemian-American
citizens, about 300 in number, who went
to attend the great national theatre
which was finished two years ago and of
which every Bohemian is proud.

KNOCKED OUT WITH A BIBLE.

The meetings of the salvation army
continue to be interrupted. Last night
Bridget Sullivan, who has a deep hatred
of the salvation army, went to the hall
in an intoxicated condition. She created
a disturbance, knocked a man down with
a bible and was arrested.

CROP PROSPECTS GOOD.

The commissioner of agriculture, Mr.
Coleman, in an interview says: "The
outlook for crops generally is exceed-
ingly good, with the exception of winter
wheat, of which there would be but a
two thirds crop. The deficiency, how-
ever, would nearly be made up by the
spring wheat, which since the introduc-
tion of the roller process makes as good,
if not better, flour than winter wheat."

A Wreck on a Grip Line.

By Telegraph to THE SENTINEL.

KANSAS CITY, June 18.—Yesterday
afternoon a train appeared on the top of
the steep incline on the new cable road,
near the Union depot, and dashed down
at a fearful rate of speed. The train
was composed of two cars and a grip
car and was filled with passengers. At
the end of the plane at the depot it col-
lided with another train. T. E. Ashley,
William M. Rawson, Dave Ricketts and
Ernest Roberts, who were on the grip
car, were seriously injured. The road
had been in operation only two days.
The accident was caused by Dave Rick-
etts, the grip man, becoming excited and
losing control of the train.

land, a newspaper, is of the opinion that
the advent of the conservatives to power
will be for the benefit of Ireland. "They
are likely," says the United Ireland,
"to grant to the country more self gov-
ernment than the Whigs."

and Declining Condition
To-Day.

Mood is Decidedly Despon-

Feel there is No Immediate
Danger of Death.

General Grant.

By Telegraph to THE SENTINEL.

MR. GRANT, N. Y., June 18.—General
Grant's condition is not materially
changed from that of yesterday. Dr.
Sands arrived and at noon he and Dr.
Douglas were with the general.

General Grant was dressed at 10
o'clock but remained in doors, and at
noon had not appeared outside. His
physician said that his condition was not
worse than yesterday, so far as related to
local trouble. His voice was somewhat
impaired. The loss of his voice has
been a cause of great despondency since
Sunday last. Drs. Douglas and
Sands finished the examination of the
general's throat this afternoon. The gen-
eral then appeared on the piazza, where
the family were waiting him to sit with
them and have a family picture taken.
After sitting for the picture the general
remained on the piazza reading the
morning papers. In the meantime the
doctors were in consultation. They had
found his pulse to be 72. Dr. Sands
found no particular change in the con-
dition of his throat since Sunday, and
both doctors believe there is no im-
mediate danger of death.

The aching back, the hollow skin, the hollow eye, give way speedily before Hunt's Remedy.

"Any physician who has used it will certify to the excellence of Hunt's Remedy. Hunt's Remedy is a standard remedy for dropsy and kidney diseases." Oubert Clark, M. D.

Any boy should thank God for being born and raised on a farm. There is no place on this green earth so well adapted to perfectly develop mind, muscle and manhood as a farm. There a boy has the purest air, the freshest and healthiest food, plenty of unrestricted exercise, the brightest sunshine and the soundest sleep, the very conditions necessary for the highest development. Nine-tenths of all the men who have made their mark in any business, profession or pursuit, have been born and raised on a farm; that is not so much because there is better blood in farm life, but it is better calculated to call out what there is in a boy and develop a full grown, healthy, perfect and self-reliant man.

"I feel like a hero."

This is what Mrs. Mayer, of Baronne street, New Orleans, says of Brown's Iron Bitters. "A 'charm' works quietly, surely, promptly, thoroughly and with delightful effect. That is just the way this wonderful family medicine works on my little who have been suffering the worst of liver complaint, dyspepsia and impoverished blood. Those who know its worth say it is a complete cure for dyspepsia, weakness, malaria, neuralgia, etc.

A CERTAIN Turk, according to Frank Stockton, was once married to a veiled lady in white in the presence of the Sultan. As soon as the ceremony was concluded the bride mysteriously disappeared. The groom was led into an adjoining room, where stood twelve ladies, all dressed in white, but without veils. "Choose from the twelve," exclaimed the sovereign, "her that is your bride." As the man had never seen her face, the command bewildered him. "If you make a mistake," added his majesty, "your life shall pay the forfeit." The poor fellow walked up and down the row of beauties, but saw nothing whatever to aid his choice. "You have only a minute left," yelled the Sultan, in anger; "choose at once." Two of the ladies he noticed, gave him something else than a stony stare. One of them frowned; the other smiled. "The frowning one," he thought, "is my bride, for she expressed her displeasure at my ignorance. No," he said to himself; "it must be the smiling one, for she desires to invite me to her." After debating the subject in his mind until his time was up he boldly made a selection from the two. He was successful. He had regained his bride. Which was she, the one who frowned or the one who smiled? The answer to the question Mr. Stockton leaves in impenetrable mystery.

The use of Iodoform or mercurials in the treatment of catarrh—whether in the form of suppositories or ointments—should be avoided, as they are both injurious and dangerous. Iodoform is easily detected by its offensive odor. The only reliable catarrh remedy on the market to-day is Ely's Cream Balm, being free from all poisonous drugs. It has cured thousands of chronic and acute cases, where all other remedies have failed. A particle is applied into each nostril, no pain; agreeable to use. Price fifty cents; of druggists.

There was a very conscientious humorist who broke off an engagement because his girl had chestnut hair.

We all say that we feel the necessity in the spring of toning up our system and no better tonic than Dr. Nichols' Bark and Iron can be found. The medical profession have prescribed it for more than twenty-five years. 15-14

Fort Wayne Paint and Color Works.

No. 12 West Columbia Street Fort Wayne, Indiana.

To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinders of Colors, where you can buy your Paints from first hand instead of paying the middle man his profit, which are from 25 to 35 per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1880, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the cans says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of public houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

Forepaugh's second advertising car
comes here to-morrow in charge of Mr.
Coyle. Geo. C. Richards tells us the
circus will pitch tents on the Hamilton
field, as the South Calhoun street busi-
ness men donated the rent.

The Walsh and Murray workmen
held a joint meeting at Driscoll's hall
this morning. The Murray shop is de-

Mrs. Sarah Sprague, who is charged
with committing perjury to injure Trustee
John King, is on trial before a jury in
the circuit court. Irwin Stratton ap-

Stephen Baker and Tom Jones, who
left the Forepaugh show at Kendallville,
were drunk on the streets last night and
the police officers arrested them. Mayor
Muhler sent the men to jail. Charles
Seugen and Henry Smith, for drunken-
ness, were also sent over. The former
is a boy twenty years of age.

J. K. McCracken, agent of the Pitta-
burg, Fort Wayne and Chicago road
here, says there is no truth whatever in
the published rumor that the company
will discharge Knights of Labor or any
one else in their service. The other offi-
cials say the company is more likely to
increase their force and are sore at the
rumor to the contrary.

Jerry Hillegas, the ex-county superin-
tendent of education, makes the state-
ment that Dr. J. L. Schmidt, of Hoag-
land, was approached by Joe W. Cope
and Will H. Shambaugh, of the city,
who secured him of his nomination and
election as a representative to the state
legislature if he would subscribe \$400 to
the stock of the Fort Wayne Journal.
Perhaps this business may interest other
democrats who aspire to official honors.

ASKING A REDUCTION.
The Representatives of Four Fort
Wayne Railroads Before
the state Board of
Equalization.

The state board of equalization yester-
day heard the representatives of four
railroads, who desired to show reasons
why their tax assessment should be re-
duced. The Grand Rapids and the Cin-
cinnati, Richmond and Fort Wayne
roads were represented by Wm. Parry,
of Richmond, president of the latter, and
P. S. O'Rourke, general superintendent
of the former. Judge Williamson, of
Ohio, and Hon. R. C. Bell, of Fort
Wayne, appeared in behalf of the New
York, Chicago and St. Louis road. They
claimed that the earnings were much
smaller than last year and they asked
for a reduction of the assessment, at
least proportionate with the decrease in
business. Colonel Howe, of St. Louis,
made a plea to the same effect in behalf
of the Wabash system. The board will
probably not begin the work of fixing
the assessment for about ten days.

The Library Hall.

The festival last night called out the

night were upwards of \$200.

BURIED ALIVE.
Tim Lucey, a Laborer, Under Ten
Feet of Sand for Twelve
Minutes.

Tim Lucey, a laborer employed by
Ogden, the plumber, to make excava-
tions, had a miraculous escape from
death today. With another man he
was digging for gas main connections in
front of the new Rich building at the
corner of Douglas avenue and Calhoun
street, at noon. He stood ten feet
below the surface of the ground and
hoisted earth from a cave-like excava-
tion. Suddenly the sand banks about
him caved in, the soft earth covering
him completely and piling above his
head three feet. His companion fled in
terror and Tom Mannix and other by-
standers leaped into the hole and began
to relieve Lucey, whose suppressed cries
for help could be heard through the
loose sand. In about twelve minutes he
was taken out almost dead, and driven
in a carriage to his home on Broadway.
His injuries are very severe, but he
will live.

The man could breathe a little through
the loose sand, and this fact saved his
life.

occurs the skating carnival which will

nounced for Saturday evening has been

They Lose Money.

The Warsaw Times says: "Norman
Bockley, general manager of the Cincin-
nati, Wabash and Michigan railroad, was
in town yesterday. This road is losing
money by not making an effort to make
Warsaw a summer resort, as is also the
Pittsburg, Fort Wayne and Chicago rail-
road. A small amount of money judi-
cially invested by these two companies
would yield a rich return, and this is a
subject that needs no argument to prove
its truthfulness."

St. Augustine's Academy.

The closing exercises of St. Augus-
tine's Academy, in this city, will take
place on the 29th inst. The program,
which is being arranged for the occasion,
consists of a very pleasing drama en-
titled "Fiction versus Reality," and a choice
selection of vocal and instrumental music
and essays by the graduates. The young
ladies will do their utmost to make the
evening a very pleasant one. THE SENTI-
NEL will publish the full program.

The Simpson M. E. Fair.

This festival attracts a pleasant party
each night and the interest seems to in-
crease. The affair is conducted on a
pretty lawn under tents and the effect is
novel and enjoyable.

is steadily increasing.

WHY THEY FEAR.
Railroad Engineers Hesitate to
Cross Double Tracked
Bridges.

"Did you ever ride on a locomotive
cow-catcher," remarked a veteran Pitta-
burg engineer last night. THE SENTINEL
representative acknowledged all his rid-
ing was on foot, whereupon the engi-
neer resumed: "When an engine strikes a
bridge she drops. Its the bridge set-
tling under the terrific pressure. As
you first strike it seems as though you
were going down sure enough. Perhaps
you never thought of the blow a
locomotive strikes a bridge. It is not
the weight of her, but when she is mak-
ing forty or fifty miles an hour and
comes down on a bridge it is enough to
make it settle. Right here comes my ob-
jection to double track roads. The
bridges on these roads are usually built
continuous—one bridge for both tracks.
I was running along one day and was
just approaching a bridge when I saw
another train coming towards me. It
occurred to me what if both locomotives
should strike the bridge at the same in-
stant, one at either end, the very thought
of it startled me so I shut off steam and
put on the brakes. I ain't a coward but
I don't want any of that in mine. I
would not risk 50 per cent. of the rail-
road bridges in the country to stand a
blow from both ends at the same in-
stant."
